NOTES

W stated he was driving his car (1998 Nissan pick-up) from Coppin State College to his home, to pick up a plain [sic], to shave a door at school. (Maint. aide)

W stated on his way back, he stopped his truck because "he had to go to the bathroom" (his words) to take a leak, real bad.

W got out his truck and walked into a wooded area and he noticed the earth had been disturbed, like someone digging and then he saw some hair, partially covered in dirt. (Approx 25-30 ft from road)

W walked over to body and walked around the body and saw what looked like a foot. Rest of body was covered in dirt and leaves.

Page 2

W stated he walked back to his truck without going to bathroom. Got in truck and drove to school.

W while at school, told campus police George Anderson about the incident (told him same thing he told me)

W Off Anderston told Mr S. To tell Chief Collins, which he did (same thing he told me)

W Chief Collins then called the Police Det. Marcus.

W stated he almost fell over body, it was right beside him when he started to urinate.
